OPENAIR MEETING

THE BENEFITS OF OUR FORMATS

An open air meeting is a concept whose goal is to create better connections between people through the energy of nature. Club del Sole's Workin' Glamps offer the ideal setting and MICE services needed to make every meeting enjoyable and effective.

Pop Up & Breakout Balcony

The living room and porches of our accommodations become the perfect setting to accommodate small work teams from 4 to 8 people.

+ NATURE
- STRESS

On The Beach Garden Circle

In a circle and in contact with nature, drawing in the sand or watching the clouds in the sky: cooperative learning and creative design are born this way.

+ CREATIVITY
- LIMITATIONS

Nature World Cafe

Customised lounge areas in green and natural spaces give life to relaxed and informal, lively and effective conversations.

+ FOCUS
- FORMALITIES

Walking Meeting

Exercise that clears the mind: a travelling meeting stimulates conversation and provides space for mutual communication and listening.

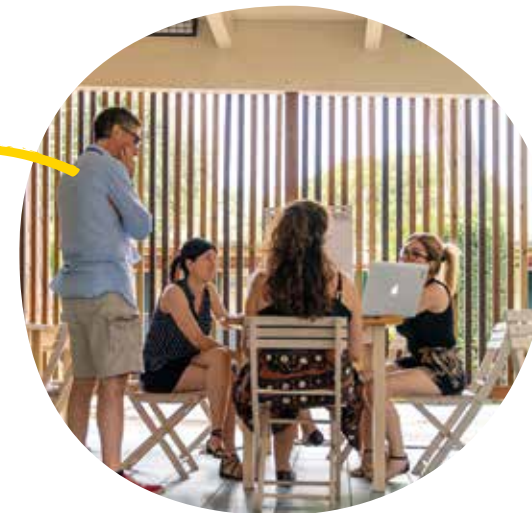

+ LISTENING
- BARRIERS

PARTNERSHIP

The Workin' Glamp project was born from the collaboration with DUAL Communication - Marketing, Communication and Events Agency with which we selected the Club del Sole villages where to organize Open Air meetings.

The partnership with DUAL offers us customizable Mice proposals for any type of event:

- Experiential team bonding
 - Land exploring
 - Coaching programs
 - Entertainment

A team specialized in creative, effective and exciting business events is ready to welcome you and meet all your needs!

DUAL is the first Agency that scientifically enhances marketing, communication and events through the use of emotional intelligence (EI) with a scientifically validated model.

The Agency has been active for over 20 years in B2C with brands in various product sectors. More than 25 professionals, including accountants, graphic designers, creative designers, event managers, specialists in branding and communication, digital and web designers, business coaching and territorial marketing, now work at the two headquarters in Milan and Marsala.

TEAM BONDING

Trust in one's teammates, the ability to recognize one's own and others' talents, willingness to collaborate can be learned in the kitchen or behind a bar counter, with a musical instrument in hand or on a sail boat, while hiking or on a theatre stage.

FELLING CONNECTED TO ONE'S TEAM LEADS TO CREATIVE OPTIMISM

FUN EXPERIENCE

FLOATING WINE

Would you let a great glass of wine drown? No? Then keep it safely on board! The team will have to put their manual skills to the test to build a raft that will save the final toast. "Cheers"!

AELOUS' CHALLENGE

A regatta to develop fellowship among crew members, who only by working together and sharing the successes and risks of the challenge undertaken can achieve their goal. The course is the strategy. The wind blows: risks or opportunities.

GAMES UNDER THE STARS

The charm of a sports tournament in the moonlight to take full advantage of the potential of our villages to organise sports tournaments under the stars from swimming competitions in the pool, to soccer or volleyball on the beach.

GREEN EXPERIENCE

NATURE DRUM CIRCLE

The excitement of music and the energy of the percussion instruments. Surrounded by the beautiful sceneries, a team of musicians will help you turn into talented percussionists, creating an amazing musical ensemble.

SUSTAINABLE OBJECTIVES

Being immersed in nature helps to reflect about topics of crucial importance such as the environment and sustainability. The 17 sustainable development objectives identified by the UN acknowledge the close link between human well-being, the health status of nature and common challenges for all countries.

WACKY RACE

Creativity, unity, ecology: the world's craziest race wears green. A race car to be built using recycled materials, which will be used to race with noisy exceptional engines: team members!

BODY&SOUL EXPERIENCE

PLAY BACK THEATER

Getting in touch with the virtuous and liberating power of theatre, testing oneself in engaging role-playing, experimenting with stage dynamics, discovering new aspects of oneself and team members. A fun, deep and surprising theatrical improvisation exercise.

DARK ROOM

The excitement of undertaking a real sensory journey. No sight: it is necessary to amplify all the other senses to take an unusual mental journey in which there is nothing to see, but much to feel, learn and discover, trust in others among other things.

LAUGHTER YOGA

Laughing for no reason, just like children do. That would be nice, wouldn't it? The good news is that it can be learned. By combining yoga breathing exercises with diaphragm exercises, you train your laughter muscles. Good mood needs exercise and, fortunately, it is contagious!

MARTIAL ARTS FOR THE MIND

Immersed in beautiful natural settings, you will be guided by a martial arts master who will lead you to experience concepts such as confidence, balance, and flexibility through the use of the body, which promotes deep personal and relational learning.

LAND EXPLORING

Club del Sole's Workin' Glamp Resorts, thanks to an exclusive location within protected natural parks, are full of history, culture and food and wine. Through the "Land Exploring" projects, we stimulate the participants' curiosity by opening a privileged window on the wide cultural heritage of the Italian areas.

A GOURMET TRESURE HUNT

Thinking that a routine guided tour of the city is not for you because you are afraid of being bored to death? Then have fun to discover the area in an unusual way: for example, by hunting for clues scattered in the most beautiful and characteristic areas of the place. Each challenge won has an appetising bonus perfect to win a lunch for the whole group!

BEIJING EXPRESS

This challenge is just for those who love challenges and adventures. Just like in the well-known TV format, you will have to try to reach your destination by asking locals for help. You will need an adventurous spirit and a good amount of chutzpah, but also unity and trust in others. Moreover, it is a great excuse to explore beautiful cities and breathtaking views!

THE CHEF'S IDEAS

No, this is not just an ordinary cooking class: in addition to mastery of execution also imagination and creativity come into play here! After the presentation of the typical dish by the official chef, teams will have to try themselves in their personal reinterpretation. Whet your appetite and imagination!

ANCIENT TRADES

A workshop to discover ancient trades, face to face with local artisans who will reveal the secrets of their art to discover the hosting land through the hands of those who experience it.

DINNER WITH THE KILLER

There are a thousand ways to explore the territory. The town becomes the setting for a professionally recreated mystery and the participants will impersonate the detective and go on the hunt for clues to find the killer. The evidence gathered will be discussed at dinner, where the commissioner of Police and characters involved will be present.

TREASURE BIKE

A treasure hunt on two wheels, discovering beautiful natural scenery or stunning art cities. Whether it is an off-road mountain bike ride or a city bike ride, equipped with an orientation kit, this experience is about hunting for beauty with the goal of strengthening team cohesion in a fun and collective discovery journey.

COACHING PROGRAMS & RETREATS

We created a range of workshops, classroom experiences and coaching programs designed to create a winning organisational culture through a process for changing mindsets and attitudes.

Keywords:

- Dynamism
- Involvement
- Interaction

EMOTIONAL INTELLIGENCE

Six Seconds-certified workshops, the leading network for studies and research on social-emotional skills to learn the characteristics of one's own brain style and how to use it with the rest of the team to improve the management of emotions and relationships.

CONVERSACTION

A workshop to learn how to manage conversations in a conscious, intentional, and effective way. It is an art that strengthens leadership, produces more productive personal and professional relationships, and promotes a more creative climate in one's social, family, and corporate community.

PRESENTATION

A series of hints, ideas, and cues to help speakers in making their presentations more effective, enjoyable, and memorable, and to ensure that they inspire their audiences to real action.

FEEDBACK

Are you among those who when awaiting feedback place their cell in airplane mode? Or who rather than give feedback would escape to an island? Two good news: you are not the only one, and it can be improved. A workshop that aims at encouraging the use of feedback among team members, exploring its huge positive impact in everyday life!

BUSINESS TELLING®

A workshop based on a communication model whose focus it to make one's business stories captivating. Having a good story to tell, one that comes from a structured creative strategy is in fact the trump card when it comes to activating targets and boosting their involvement.

HAVING FUN

Sharing together moments of excitement and light-heartedness in an atmosphere overflowing with good vibes.

Tasting wine, dancing, or becoming a child again for a while is a great way to connect deeply. And maybe to learn something new, and surprise oneself.

UNCONVENTIONAL FEEDBACK

After an event, it is most important to know the emotions and feelings of those who experienced it. Is filling in a feedback satisfaction form truly the solution? We do not think so. We believe it is much better to do it through playful and fun dynamics, to share one's thoughts in a lighter and more spontaneous way.

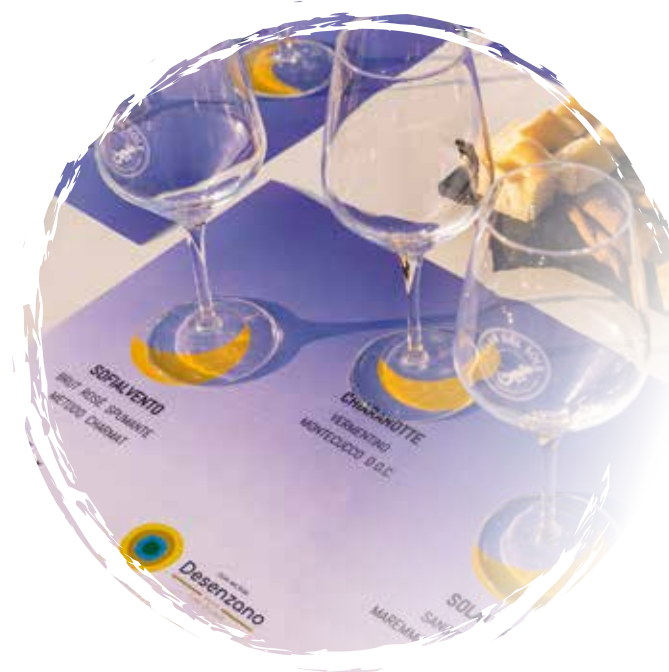

MINI ME

Becoming a child again? It is possible. Sometimes it is enough to unlock a memory, evoke an episode, or move the right lever. Through a conversation made of direct and unexpected questions, one will connect again with moments of one's childhood, while a photographer will capture the emotions appearing on the participants' faces.

KNOWLEDGE & FLAVOURS

Not just food and wine tastings, but journeys through the origins, history, and passion that lie behind each product. Local producers become storytellers and guide participants through a memorable sensory experience.

IN VINO VERITAS

A glass of wine is always a great ally for exchanging ideas and considerations. A team of specialised sommeliers and coaches created tailor-made tasting sessions in which wine becomes a metaphor for changing, listening and collaborating in the corporate world.

BAREFOOT MUSIC

Close your eyes, take off your shoes, connect with the environment with an open heart. Let yourself be transported by the rhythm. A group of musicians will pull you into sounds and melodies that run with the rhythm of the surrounding nature.
